MUSHROOM PEOPLE GARDEN ART EDITION II 2025-2026

DARKWOOD WOODCARVING
<https://dwcarving.com>

A GREAT PRODUCT COMES FROM **A FUN IDEA**

The Mushroom People represent Spring and summer fun. It is just that; a great & fun Idea. We started designing and creating the Mushroom People about 20 years ago and have expanded the concept to a full blown multi layered garden art product.

**Created using
Traditional tools**

ABOUT OUR STUDIO

Darkwood Woodcarving Studio

<https://dwcarving.com>

We are located along the Saint John River (Wolastoq River) in the small town of Oromocto, NB. I am a retired Canadian Armed Forces (soldier) and after 35 years of dedicated service, it's now time to focus completely on creating new ground breaking artwork for the future.

We ship Canada wide and to the EU

OUR CREATIVE TEAM

Gary & Marie Crosby, Art Team.
(506) 238-1398

Marie Crosby

Master painter &
Chief Executive

Marie is a professional painter and a graduate of a commercial art school in Nova Scotia. She has been creating artwork for most of her life and has drawn inspiration from many cultures over the years, including her four years in the Black Forest region of Germany, which is rich in art culture. However, nothing compares to her experience as a French Acadian from Yarmouth County, Nova Scotia.

Gary Crosby

Master Carver &
Chief Executive

Gary is a skilled mixed media artist with extensive training from artists globally. His military deployments in Rwanda, Central Africa, Sierra Leone, West Africa, Afghanistan, Germany, Bosnia, Central America, and across all Canadian provinces have provided him with a wealth of experiences that profoundly shape his artistic vision. His family heritage comes from Yarmouth, Nova Scotia, and Bethune, Saskatchewan.

Artist Spirit

Mascot

The Carver's Spirit is a Caricature we picked up while living in the Black Forest region of Germany from 1985 to 1989. He has been on our workbench ever since. He holds a spirit of creativity and reminds us of the rich artistic environment we lived in many years ago.

How They Are Created

Our Mushroom People are created from select White Cedar from New Brunswick. They are first hand-carved onto their intended design. From there we use a skill called Pyrography art to enhance its depth, then we hand-paint each one using acrylic paint. Once all of that has been completed we secure the cedar stake to the back using waterproof glue and wood screws, ensuring it is solid and will withstand being pushed into the ground year after year. Last we seal the complete mushroom and support stake in a waterproof finish using two coats of Spar Varnish.

Each of our Mushroom People and our garden art comes with a 11 inch cedar stake secured to the back with waterproof glue and wood screws.

Ensuring strength and durability.

Design Information & Specifications

Mushroom House

Wood type: White Cedar

28 cm by 18.5 cm by 2.25 cm

11 inches 1 1/4 inches 7/8 inch thick

Stake is constructed out of white cedar and is 11 inch long with 6 inches protruding from the bottom of the carving
