## Coin and Flag Display Solid Hardwood (Oak)

This display does not come with a flag, coins or plaque. You have to provide that. The flag that works the best is the $27 \times 54$ inch, as seen above. Drilled Coin holes are a standard 1314 inches but can be custom ordered for the same price. This display comes with classic four-coin display spots with room between the coins for a plaque. Plexiglass is included in this display.
