‘Heart of The Forest’

This woodcarving is hand-carved and hand-painted in our Oromocto, NB studio. The carving represents the beauty of wood, in particular the heart of the Forest. Knowing just how important the forest is to us with global climate change barreling down on the world, this carving represents our dependency on the forests of the world.

British Columbian live edge Redwood with a hand-carved basswood rose inserted into the Redwood using traditional woodcarving tools. Then covered with clear epoxy.
