

# Walking on Thin Ice

## Climate Change Art 2021

*'Walking On Thin Ice' Climate change art brings attention to the diverse, fragile environment of Northern Canada. 'Walking On Thin Ice' was designed and created by Gary & Marie Crosby. Hand-carved and hand-painted, and the 4th climate change art created by Gary & Marie and will not be the last. Chimo!*

*Created by 2 artists  
Gary & Marie Crosby*

*Right Side View*

*Mixture of three mediums  
(woodcarving, resin art, painting)*
