

Castle Tower

Cottonwood Bark Carving

Carved Cottonwood Bark Castle Tower. A substantial long chunk of cottonwood bark carved into a castle tower with windows and stone works. Designed to hang on the wall. This carving has a built in LED light carved into the back, with a colour changing LED. Hand-painted and finished with one coat of tung oil and two coats of beeswax. Size: 21 inches tall with a width of 4 inches. This carving has a thickness of 2 1/2 inches. Thanks and Chimo!
