

Whimsical Fairy House

Cottonwood Bark Carving

This hand-carved whimsical fairy house is carved in our Oromocto NB studio, out of a substantial chunk of cottonwood bark from BC. Size 11 inches tall with a width of 4 inches and a depth of 2 inches. Finished with three coats of wax, one mahogany wax followed by clear beeswax. Very whimsical design showing each twisted board and nail running up and down the building. Chimo!
